Summary Results-oriented Full Stack Developer & Python Developer with hands-on experience in Django, React.js, REST APIs, SQL, and QA testing. Skilled in building scalable web applications, secure authentication systems, and API-driven architectures. Experienced with Stripe payments, Twilio WhatsApp automation, JWT authentication, and AI/ML-powered features. Strong problem-solver with a focus on clean code, performance optimization, and delivering reliable, production-ready software.

- Skills**
- Python
 - Java Core
 - JavaScript
 - PHP
 - SQL
 - React
 - Django
 - DRF
 - REST APIs
 - JWT Authentication
 - API Integration
 - API Testing
 - Stripe API
 - Postman
 - Git
 - GitHub
 - JQuery
 - OOP
 - MVC Architecture
 - Debugging
 - QA

Education M.Sc., Computer Science & Information Technology (Ongoing)
Silver Oak University, Ahmedabad

B.Sc., Mathematics (2022-2024)
HNGU, Patan

- Certifications**
- Data Analytics, Deloitte
 - Data Visualization, TATA
 - PHP & MySQL, IIT Bombay
 - Generative AI, LinkedIn Learning

- Projects**
- **Stock Prediction Portal**, React.js, Django REST Framework, AI/ML (Ongoing)
 - Developing a full-stack stock prediction platform using React (frontend) and Django REST Framework (backend).
 - Implementing AI/ML models for trend forecasting, historical data analysis, and real-time stock insights.
 - Built JWT authentication, secure API endpoints, and interactive dashboards with charts and indicators.
 - Designed responsive UI components and integrated data visualization for improved user experience.
 - **AutoCare Pro - Car Service Management Platform**, Django, MySQL, Stripe, Twilio WhatsApp
 - Built a multi-role platform for Customers, Service Shops, and Super Admins to manage bookings, towing requests, and service.
 - Integrated Stripe for secure online payments and Twilio WhatsApp API for automated notifications and OTP verification.
 - Designed optimized database models and reusable Django components for scalability.
 - **Portfolio Website**, HTML5, Bootstrap, jQuery
 - Designed and deployed a modern, responsive portfolio showcasing projects, certifications, and technical skills.
 - Implemented smooth animations, interactive components, and mobile-first UI design.
 - Hosted on GitHub Pages with optimized assets and clean code structure.
